VOLUNTARY ANNOUNCEMENT – TRADING OVER THE COUNTER

Gondwana Holdings Ltd. ("Gondwana" or the "Group"), the parent company of the Gondwana Collection Namibia, has officially commenced trading through the Namibia Securities Exchange ("NSX") Over the Counter ("OTC") platform. The admission to quotation marks an important milestone in the Group's growth and investment journey; allowing new opportunities for investors to participate in one of Namibia's most respected tourism and hospitality brands.

Building on Gondwana's existing share trading opportunities, the NSX OTC quotation now enables more participating brokers to facilitate transactions in Gondwana shares. This makes the shares accessible to a broader investor base, whilst providing market visibility, and supporting transparency for existing shareholders and prospective investors. The Group will be regulated by the NSX in terms of the NSX OTC rules.

Upon inception in 1996, Gondwana began as a conservation-focused accommodation operator. Over the past 30 years, the Group has grown into an integrated tourism group operating across Namibia. Its portfolio extends beyond accommodation to include vehicle rental, destination management, travel services and tourism experiences, offering investors exposure to a diverse range of complementary tourism businesses.

This quotation reflects Gondwana's commitment to sustainable expansion and long-term value creation for shareholders; and ultimately at the heart of Gondwana's growth strategy remains its commitment to Namibia. This is done through investment in tourism infrastructure, the creation of employment opportunities, supporting local suppliers, artisans and communities, while contributing to the preservation of the country's most important asset – the natural and cultural heritage.

Gondwana's Managing Director, Gys Joubert stated, "For thirty years, Gondwana has played an integral role in developing the communities and landscapes in which we operate. Through sustainable value creation, we have managed to build a successful business. Making our shares more accessible and easier to trade is the natural next step in our business journey."

The quotation reinforces the Group's commitment to sound corporate governance, responsible financial management and clear, timely and transparent communication with shareholders. As Gondwana continues to develop its hospitality portfolio and complementary tourism activities, broader investor participation forms an essential part of its long-term capital market strategy.

Gondwana remains focused on sustainable growth, disciplined capital allocation and operational efficiency, while developing tourism products and experiences that strengthen Namibia's appeal as an international travel

destination. Through these priorities, the Group aims to create lasting shareholder value and contribute positively to the Namibian economy.
